October 25, 2016

State Office Building  
Michigan Department of Environmental Quality  
Attn: Mike Kovalchick  
Air Quality Division

Dear Mike,

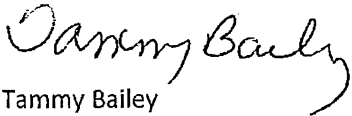

I have enclosed the following

Time cards for the day the crusher was in operation.  
The production logs I have for the crusher we have done for other customers.  
A copy of the lease and sub-leave for the Bohne Road location.  
Specifications for 1000-15cc Portable plant.

Here at our yard we have not kept as good of records that we should have, but from this day forward there will be a log kept of materials processed on a production report. I have enclosed a copy. Please let me know if this will be acceptable.

I need anything else please call me at 517-750-4889 or 517-392-5607.

Respectfully,

Tammy Bailey  
Bailey Sand & Gravel.
